In addition to these guidelines the host organising committee will strictly follow the advice and measures put in place by their local and national health authorities.

As the situation around COVID-19 hopefully improve as time goes by, the host, in consultation with the BWF may remove some of the guidelines and/or provide dispensation to some of the described procedures. If, however the situation worsens the host, in consultation with the BWF may also strengthen the guidelines and request additional requirements be put in place.

PROTOCOLS FOR PLAYERS AND TEAM ENTOURAGE
YONEX SWISS OPEN 2022

*Arrival timeline – Main draw players
Main draw players must arrive to Basel on time for their on-arrival test (including any potential follow-up PCR results) to be received before their first scheduled match. The latest on-arrival test opportunity in the official hotels is at 12:00 (noon) on Tuesday, 22 March.

The following procedure will be followed for the on-arrival tests:

1. Pick-up by transport of the YONEX Swiss Open organization at the place of arrival
2. Transfer to the official hotel
3. Check-in to the hotel → No accreditation will be provided at this point
4. On-arrival Anti-gen test and wait for the test result (30 minutes)
5. Test result is received
   a. If negative → check-in → the accreditation pass will be provided
   b. If positive → participant will be isolated in their hotel room, and do a PCR-test to confirm the Anti-gen test result. (The PCR test result can take up to 24 hours to receive.)

All testing activities are mandatory and a requirement to get an accreditation and access to the tournament. Accreditation passes will only be issued once negative tests have been obtained.

In addition, if BWF request a test to be taken this cannot be refused. If players/coaches have symptoms they may request a test or be required to take a test.

2.5 Protocols in the Case of a Positive Test
In case of positive test, the host organising committee will inform the BWF. The following protocols are in place in Switzerland for positive cases:

If you have received a positive test and you are not already in isolation, self-isolate immediately. Follow the Instructions of isolation and avoid all contact with other people. Inform everyone you share a room with or with whom you have been in comparable regular and close contact in the 48 hours preceding the onset of symptoms, or if you did not have any symptoms, from the date the sample was taken. If you are sharing a room with other people, move to a single room to isolate yourself.

Further information on the isolation regulations are available in the following document: instructions on isolation.

In the ideal case, the Cantonal office will inform positive patients when they can end their isolation. If a patient doesn’t receive instructions, the isolation must last at least 5 days. Depending on the patient’s state of health however, it may last longer. Patients can come out of isolation if at least 5 days have passed and they have had no more symptoms for the last 48 hours. An exception applies if the only symptoms the patient experiences are continued loss of sense of smell or taste or a slight cough. These symptoms can take longer to fully disappear. The patient can come out of isolation if he/she has these symptoms alone.
Close contacts

The BWF close contacts are defined as doubles partner and roommate. The BWF protocols for close contacts are determined by vaccination status.

- Fully vaccinated participants who are deemed close contacts can avoid withdrawing from the tournament if they test negative when requested to do so and if they move to a single room and undertake a daily antigen test at their own expense.

- Unvaccinated and not fully vaccinated participants who are deemed close contacts are required to withdraw from the tournament.

It is extremely important that all participants respect the physical distancing, mask wearing, no gathering protocols, to limit the number of participants to be defined as close contacts.

Participants must have personal insurance covering any situation included COVID-19 hospitalization, quarantine, and any other costs. The Local Organising Committee and/or BWF is not responsible for any insurance costs related to COVID-19 during the tournament.

3 Protocols for Players and Team Entourage – Pre-Tournament

3.1 Pre-arrival testing (carried out in Home Country)

All players/entourage must obtain a negative test certificate 72 hours prior to their arrival in Switzerland. This requirement includes foreign and Swiss players living in Switzerland. This is to ensure that all participants start the tournament with some assurance that they are COVID-19 free. The pre-arrival test is at the Member Association/team/player/entourage own cost.

The result must be submitted online: https://form.jotform.com/220548022527450

All players/entourage should also possess an original copy of the negative test certificate to be presented at the check-in counter at the point of departure and at the local Immigration upon arrival at the tournament airport if necessary.

Upon arrival to the official hotel participants will undergo a Rapid Antigen COVID-19 test. The tests will be conducted in a dedicated testing room.

After the test, participants must wait for the test result (30 minutes) and check-in to their rooms once the results are confirmed.
