RESTARTING INTERNATIONAL BADMINTON TOURNAMENTS

SAFETY PROTOCOLS & OPERATING PROCEDURES

WORKING PERSONNEL & TECHNICAL OFFICIALS

TotalEnergies BWF
THOMAS AND UBER CUP FINALS 2022

BANGKOK, THAILAND • 8-15 MAY, 2022
1 Introduction
The purpose of this document is to outline the safety protocols that will be put in place for all players and team officials during the TotalEnergies BWF Thomas & Uber Cup Finals 2022. A separate Covid-19 safety protocol document for other stakeholders involved in the tournament including organising committee work force, volunteers, media and technical officials will be provided separately.

As the situation around COVID-19 improves as time goes by and the host’s country reduces its COVID-19 measures and transitions to endemic phase, BWF may remove some of the guidelines and/or provide dispensation to some of the described procedures. If however the situation worsens BWF may also strengthen the guidelines and request additional requirements be put in place.

This document is applicable to,
- BWF Staff, Partners and Sponsors
- Technical Officials appointed by the BWF and LOC
- Tournament Working Personnel
- Rights Holding Broadcasters (RHBs) and Green Media

There is a separate document for players and team officials, which will be sent separately to Member Associations and/or Team Managers.

1.1 The Current Situation in Thailand
From 1st April 2022 onwards, there are lesser recommendations in place in Thailand in terms of the Covid-19 rules and regulations.

The following overview shows the recommendations that currently apply nationwide.
1. Although there are less restrictions to enter Thailand, however, the positive and close contacts management remains which will be detailed in section 2.5 below in this document.
2. Always cough and sneeze into your sleeve.
3. Always remember to wash hands or use hand sanitizer frequently.
4. Face mask is mandatory in public spaces, be it indoor or outdoor.
5. Keep physical distance of at least 1 meter from others.
6. Thailand puts emphasize on its border control and will require all travellers to apply for Thailand Pass to enter the country.
7. All travellers into Thailand must download and install MorChana App.

Although Thailand is imposing less restrictions and will continue to do so in coming weeks - it is also important to note that due to the fluctuations of the recent infections rates, the government would reimpose restrictions swiftly if necessary.

1.2 General Guidelines and Preventive Measures
Players, coaches, technical officials, media, sponsors and tournament staff and volunteers all have a joint responsibility for ensuring that their movements take place in a way that limit any potential spread of infection. It is very important that the preventive measures are closely followed in accordance with the general guidelines of the health authorities.

To create a safe and secure environment during the competition period, kindly ensure that you always follow the basic preventative measures:
Protocols For BAT & BWF Staff, Working Personnel, Technical Officials & Media
